About Us

Balaji Industrial Enterprises (P) Ltd. is the well known and reputed name in the industry for its ethical business practices. Our company was established in the year **1977** with three main objectives that are complete quality management, customer satisfaction and ethical business practices. For achieving these three objectives consistently, our company has been **manufacturing, supplying and exporting** a wide array of customized goods that include **Crane Equipment, Exhaust Compensator, Wheel Pulley, Assembly Equipment, Automotive Part, Metal Spare Part** and many more. It is **one of the leading Indian manufacturers of varied and diversified engineering products which includes Forgings, Machining, Fabrication and Equipments of ASTM, DIN, EN, JIS or BS Standard for all core industrial segments for over three decades.** With the industrial experience of more than three decades, our company is able to provide desirable goods to the customers with maintaining world class standard in them at most reasonable rates and on time. The products of our company are popular among the customers of different countries due to their smooth functioning, superior quality, fine finishing, outstanding performance, high durability, user friendly nature and numerous features. These products are exported by us to South Africa, USA, Russia, Australia and U.K with **0-20%** export. More than this, we are enjoying this work with the help of our vendors and support of...
